## **SOLAR TOGETHER KENT**

Solar Together Kent is a group-buying scheme, which brings households together to get high-quality solar panels at a competitive price. Swale Borough Council is working in partnership with Kent County Council on this innovative new scheme to help deliver Kent's vision of carbon net-zero.

# HOW DOES IT WORK?

## Registration

Register before 6 October for free, and without obligation online. The more people register, the better the deal for each household.

## Auction

An auction will be held on 6 October where pre-vetted installers submit bids. The most competitive package will win the auction.

## Personal recommendation

From 26 October you will be emailed a personal recommendation, based on your registration details. This includes your costs and specifications of your installation.

## You decide

The decision is then yours as to whether you want to accept your recommendation. There is no obligation to continue. You will have until 11 December to decide.

## Installation

If you accept, the winning supplier will contact you to survey your roof and set an installation date. All installations are planned to be completed by the end of May 2021.
