What is fast fashion?

"inexpensive clothing produced rapidly by mass-market retailers in response to the latest trends."

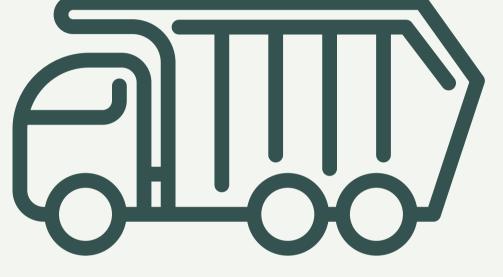

What is the environmental impact of fast fashion?

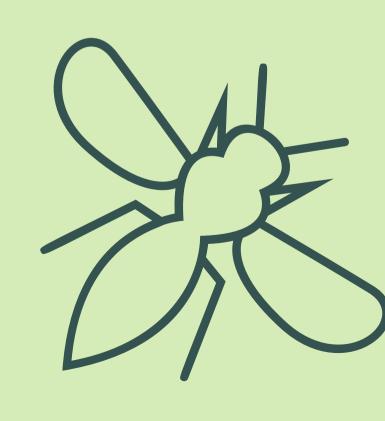

Every second, one truck full of textiles is burned or sent to landfill

The Carbon footprint of new clothes bought in the Uk each month is greater than flying a plane around the world 900 times

3 out of 5 items are thrown away within a year

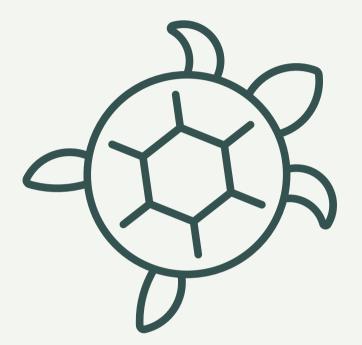

Cotton is the most used natural fibre in the global fast fashion industry. But cotton farming requires tons of chemicals that pollute nearby environments.

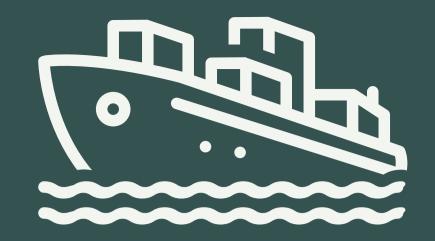

It utilizes 4% of worldwide nitrogen and phosphorous fertilizers, 16% of all insecticides, and 7% of all herbicide

The industry is the second largest clean water polluter after agriculture

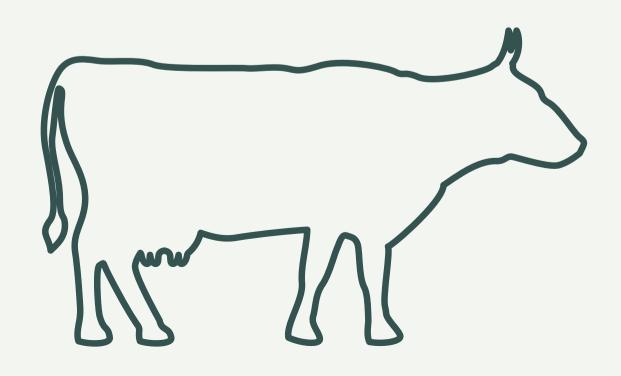

Washing one synthetic garment releases about 2000 microfibres into our waterways

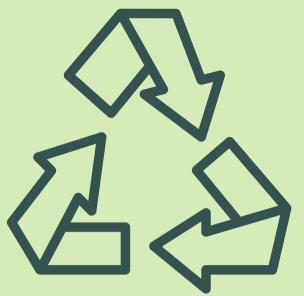

The global fashion industry emits 1.2 billion tons of greenhouse gases each year, which is more than all international flights and maritime shipping combined.

The fast fashion industry's emissions will grow more than 50% by 2030

Less that 1% of all textile waste is recycled

Textile waste generated by fast fashion releases toxic gases and carbon dioxide into the atmosphere. It contributes to global warming, air, land, and water pollution

Fast fashion exploits billions of animals every year. Intensive animal farming exploits <u>billions of</u> <u>animals</u> every year to make animalderived products used for fast fashion, such as wool, leather, fur, silk, and down feathers

What can we do about it in Faversham?

The clothes we buy:

Buy less

Don't buy something unless you truly need it.

Shop second hand

In Faversham we have a wealth of charity shops and online selling pages

Shop sustainably

Do your research on the companies you purchase from and their practices

Avoid trend shopping

build a wardrobe with more basic staples that you can get a lot of wear out of, and just a handful of trendier pieces.

The clothes we have:

Consider creating a capsule wardrobe High quality items that you love, declutter things you don't love

The clothes we don't want:

Give them to someone who wants them

If you need to donate some items, check with your family and friends first to see if they want to take anything

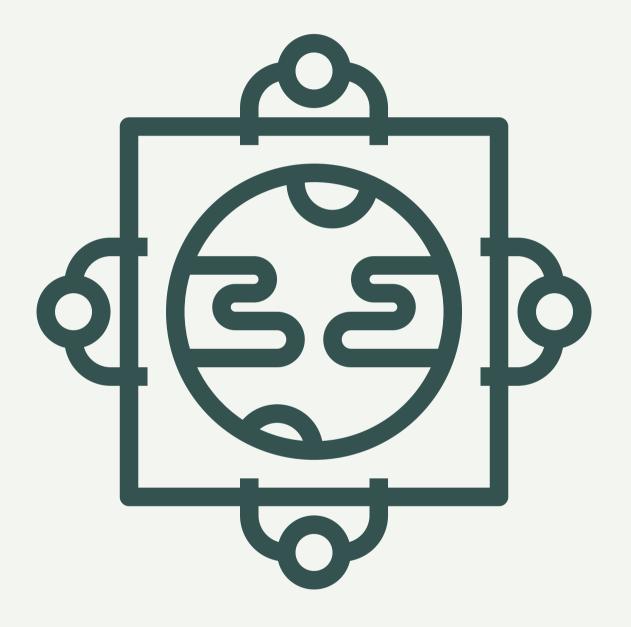

Resell them

There are lots of ways to resell your clothes, which is a great way to ensure they don't end up in a landfill

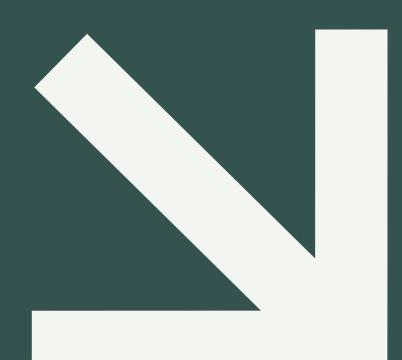

Get creative

Take care of the things you have Utilise repair cafes and make do and mend

Done something creative and make something new

What can Faversham Town Council do?

The Big Faversham Clothing swap

Help to facilitate a bi-annual clothing swap event in collaboration with external community groups like the sharing community and community wardrobe.

Textiles recycling point

Make enquiries into having a textiles recyling point in central Faversham

Supporting local initiatives

Faversham has a wealth of Community initiatives that champion the environment. The Council could take an active role in promotion of these groups and events including the Youth Climate Panel

Thank you any questions?
