

### Stonebridge works report

On the 1<sup>st</sup> of February 2022 a tenant on one of the plots at Stonebridge allotments was removed, after being removed the tenant had up to a certain period to remove their stuff from the plot including all their personal belongings in the shed. up to 8 volunteers including myself have recently spent 4 days organising the rubbish into piles on the 2 vacated plots, which belonged to the same tenant. One of the 2 sheds was safely removed and disposed of in a bonfire held by tenants at Stonebridge, and all contents were piled into the centre of the plot with the other mass loads of waste. The Faversham town council have helped with the works while also bringing in a local firm Womble removal service and assisting them. Once the removal company was brought in it took 2 days for the plot to be fully clear and safe for the next potential tenant in the future. A decision was made that FTC will be accompanying allotment committee when plot inspections are made to prevent this happening in the future.

Below are some photos of before and after the job.
