Subject: SpeedCam Anywhere App

FYA:

Following the Active Travel Committee of 23rd June 2022 where we touched on how this "SpeedCam Anywhere App" might be useful within Faversham?

Please see the following links and note the following.

"two potential chief outcomes of the SpeedCam Anywhere technology:

- Members of the public can report road speeding crime in their communities. It will lead to a vast increase in driver enforcement, through leveraging and complementing police resources
- It will act as a deterrent because any of the people you drive past could be videoing your speed. That is different from drivers feeling they only have to comply when someone in a hi-vis jacket at the side of the road is pointing a speed gun at them."

"Section 59 Anti Social Driving offence only requires reasonable grounds for believing that a motor vehicle is being used on any occasion in a manner which contravenes section 3 or section 34 of the Road Traffic Act 1988 (careless and inconsiderate driving and prohibition of off-road driving) and is causing, or is likely to cause alarm, distress or annoyance to members of the public. Hence under "reasonable grounds" a Section 59 offence can be registered. SpeedCam Anywhere could gain Type Approval for the "process" rather than the "device". In which case police and members of the public may use it for enforcement of speeding offence directly."
