

Telephone Charges

Report to Policy and Resources Committee

Monday 2nd October 2023

Background

Having identified cost code 4225 IT is over budget the Finance Assistant (Maternity Cover) has undertaken some research into cost savings and has produced the accompanying spreadsheet.

Considerations

We use a VOIP system for our calls and own the telephones. This system proved invaluable during the pandemic when we were required to work from home.

Recommendations

The following recommendation is made:

The Policy and Resources Committee agrees to contract Mitec to provide VOIP licenses and calls with a saving in excess of £70 pcm.
