Subject: Hazardous cycling on Preston Lane, please table Thursday 5th Oct

Dear Lesley,

Thank you for contacting me regarding the use of the footpath through Preston Park/Preston Lane by cyclists.

This is an area that has been looked at many times. Barriers although effective also pose issues for wheelchair and mobility scooter users. We will need to look at how best to improve safety for pedestrians while managing access for those utilising mobility aids.

I have asked that the chair of the town council's active travel committee look at bringing forward this issue to a future meeting for **consideration as to how we can best make this area safer for pedestrians.**

Kindest regards

Cllr Ben Martin, Watling ward

Cllr Eddie Thomas, Liberal Democrat, Chair of Active Travel Committee
