

Proposed changes to the Davington section of the Faversham Hopper services FH1/FH2

The new timetable sees the service on the North Preston estate turn left from North Lane, go over the Creek Bridge continue along Bramblehill Road, turn right into Reedland Crescent, turn right again into Broomfield Road then right again onto Upper Brents and back over the bridge to carry on to Court Street. This is the route it has had to take a few times due to roadworks such as when Priors Row was last closed and avoids issues such as Barnfield Road junction and the green area where there are normally parked cars obstructing the bus route.
