

FTC ALLOTMENT REPORT

Stonebridge.

No issues currently at Stonebridge allotments.

The site is running well, and the plot meets the standard of the tenancy agreement.

Bridge work started in September and we had to close off the pond area, floor to the bridge is done with treated wood and was treated again. Works all complete and area reopened.

We are going to help Sally with a bonfire in October, this is all the vegetation from Davington Hill and Brents Hill.

Stonebridge has 77 people on the waiting list.

Millfield.

The new water meter is going to be installed in October.

Millfield has 50 people on the waiting list and a few vacant plots which are being prepared for potential tenants.

St Nicholas.

No issues currently at St Nicholas allotment.

Have offered out plots to others who are waiting on other lists to take up vacant plots and have had no takers for this.

Plots are vacant.

St, Nicholas has 0 on the waiting list.

Perry court.

No issues currently at Perry Court. There is still no movement on the site, waiting for a date.

Concerned about dog walkers that use the area where there are no Dog bins in place and watering of trees, this would be good to get on top of this before it becomes a big problem when we do take over this space.

Perry Court has 43 people on the waiting list and continues to grow.

North Preston.

North Preston Allotment is having an AGM in October.

The site has started to move along. My fingers are crossed it's moving in the right direction.

North Preston has 5 people on the waiting list and one big plot vacant.
