

## The Faversham Youth Partnership

### Terms of Reference

The Faversham Youth Partnership will serve as a strategic and operational forum, bringing together service providers, young people, and other key stakeholders to address the most pressing issues facing young people in the community.

The Partnership will convene half yearly to identify these challenges, determine local actions, and promote collaborative solutions. This collective effort will ensure that young people in Faversham have access to the best opportunities available.

A central priority of the Partnership is to place young people's voices at the core of its work. By developing meaningful collaboration between the youth sector and young people, we aim to create a supportive environment where young people can thrive, shaping their communities and expanding opportunities for growth and success.

The Partnership will also support youth service providers throughout the devolution process, strengthening their ability to meet local needs effectively through adequate facilities and funding.

Proposed Meeting Dates:

Monday 31<sup>st</sup> March

Monday 29<sup>th</sup> September
