Further to my email dated 26 Oct 2025 [**3rd Phase ACTIVE TRAVEL / Central routes**]

I have looked again at this location:

OPTION 1 - It is my understanding that KCC Highways does, indeed, have a separate pot for Funding **DDA DROP KERBS** for a quick response and installation

OPTION 2 - But dependent upon future funding for an aspired 3rd Phase of Interventions > Would be for a full **RAISED PLATFORM** covering this PRESTON STREET Jtn STONE STREET

I have included pics of the central Access Chamber, which appears to be for PO / BT / OPENREACH ; The Ironwork would have to be raised as a part of the procedure

Regards, COJ

..
