Dear Councillor Martin

Please see the compass data below as requested. Hopefully this will be self-explanatory but do let me know if there is anything else I can help with.

Subject: 20mph compliance Faversham - data request following Eastern Councillor and Residents Forum

Hi all, hope you are well.
At the recent Swale Eastern Councillor and Residents Forum, an item was brought up about 20mph compliance in Faversham, specifically relating to the following streets:
Whitstable Road
St Marys Road
St Johns Road
Brition Road
Roman Road
Saxon Road
Athelstan Road
South Road
North Lane
The previously published data shows that the average speeds are below 20mph on all these streets, but I was wondering if you could provide the latest VivaCity sensor / Automatic Traffic Counter (ATC) speed telemetry, specifically:

- Latest mean (average) speeds.
- Latest 85th-percentile speeds.
- Hourly / off-peak speed breakdowns (specifically evening/overnight trends).
- Vehicle classification breakdown (e.g., cars vs. commercial vehicles vs. motorbikes).

Any information you're able to provided that I can share openly to reassure the public who raised the concerns would be greatly appreciated.
Thanks in advance and Kindest Regards

Cllr Ben J Martin (Watling Ward)
Chair, Eastern Councillor and Residents Forum
Swale Lib Dems
